## Professional Profile

I am a Master's student in Network & Information Security, as well as a Frontend & Web Developer and UI/UX Designer. I founded the Open-Source Community Club at my department and led its Graphic Design Kernel, teaching students graphic design and UI/UX skills. I am passionate about combining development, design, and security to build efficient digital solutions and continuously learning new technologies .

## Experiences

2025 – PRESENT

### Freelance Designer and Developer

Delivered web development and design solutions for clients, creating responsive and user-friendly websites. Applied UI/UX principles and graphic design expertise to enhance digital products project management, and teamwork skills..

2023 – 2024

### Leader | Graphic Design & UI/UX Design Kernel, Open-Source Community Annaba

Led the design kernel and mentored students in graphic design and UI/UX skills. Conducted volunteer training sessions to help them improve practical design abilities. Strengthened leadership, communication, teamwork.

2023 – 2024

### Co-Founder | Smart Dental Platform Startup, University Badji Mokhtar Annaba

Collaborated with the Medicine and Technology faculties to build a smart dental platform. Earned a startup brevet for innovative project development .

2023 – 2024

### Co-Founder & Member in Open-Source Community Club | Computer Science Department Annaba

Founded and actively contributed to the department's Open-Source Community Club . Maintained computer labs and provided volunteer support to the department, earning official certification for this work . Organized multiple events, one of them an international event : "Study in Japan event annaba 2024" .
